ELECTRIC HYDRAULIC POWER PACK

KPS22 / KPS37 ELECTRIC HYDRAULIC POWER PACK

The electric hydraulic power pack is designed to use with our range of concrete Pile Cutters/Pile Breakers. These power packs are a great tool for the civil construction industry, they are a low cost and convenient option for powering pile cutters.

Intelligent design means the operator can easily change from wired to wireless control. International, first class air cooling and using high quality parts for manufacture ensure a long and reliable working life for the machine.

Technical improvements to the power packs design include variable adjustment of power output, increased efficiency and environmental protection.

KPS22 / KPS37

ELECTRIC HYDRAULIC POWER PACK

SPECIFICATIONS

Model	KPS37	KPS22
Working Medium	32 or 34 Anti Wear Hydraulic Oil	32 or 34 Anti Wear Hydraulic Oil
Fuel Tank Volume	470 litre	320 litre
Maximum Flow Rate	240 l/min	120 l/min
Maximum Operating Pressure	315 bar	315 bar
Motor Power	37kw	22kw
Motor Frequency	50Hz	50Hz
Motor Voltage	380 v	380 v
Motor Working Speed	1460rpm	1460rpm
Working Weight (Full Tank)	1400kg	850kg
Wireless Control Distance	200m	200m
