**ROCK DRILL**

# Versatile Drilling Attachments

Groundwork Group supplies a complete range of excavator and skid steer attachments. Our rock drill attachments are the most versatile drilling platform for rock drilling applications. They are ideal for use in difficult low, high or confined sites. The 360° mast movement offers a great variety of movement. It allows the drilling attachment to reach even the most difficult drilling positions.

## Excavator Attachment

Our rock drill attachment can be custom built to fit your excavator model, and offers a solution for a variety of rock drilling applications.

Designed with a unique level of versatility, our drills are manufactured to support customers with interchangeable drifters. This feature gives one machine the capability to serve multiple applications without the requirement to purchase a new piece of equipment.

### Features:

- Mounts in place of bucket
- Quick coupler capabilities for quick and easy installation
- 360° Mast movement
- Dual axis movement option
- Interchangeable drifters
- Variety of feed lengths available
- Radio remote controls
- Utilizes hydraulic auxiliary of excavator

### Each Drill Purchase Includes:

- On-installation
- Drill training and certification
- Phone support

### Applications

Soil Nailing, Hollow Bar Installation, Compaction Grouting, Blasting, Dewatering, Anchoring, Fencing, Solar Installation, Augering, Drilling, Tiebacks, and Micropiles

# Skid Steer Attachment

Our rock drill attachment can be custom built to fit your skid steer model, and offers a solution for a variety of rock drilling applications.

Designed with a unique level of versatility, our drills are manufactured to support customers with interchangeable drifters. This feature gives one machine the capability to serve multiple applications without the requirement to purchase a new piece of equipment.

## Features:

- 2 Side drilling accessibility
- 110° of movement from horizontal to vertical
- Reversible feed rail for UP or DOWN drilling
- Variety of feed lengths available
- Optional radio remote control available
- Interchangeable drifters
- Utilizes hydraulic auxiliary of skid steer

## Each Drill Purchase Includes:

- On-installation
- Drill training and certification
- Phone support

## Applications

Soil Nailing, Hollow Bar Installation, Compaction Grouting, Blasting, Dewatering, Anchoring, Fencing, Solar Installation, Augering, Drilling, Tiebacks, and Micropiles
